

Muhamed Shahid P

Full Stack Web Developer . MERN Stack

 muhamedshahid7860@gmail.com  +919567108723  Kannur, Kerala, India

 linkedin.com/in/muhamed-shahid  github.com/muhamed-shahid

Summary

MERN stack developer with 3 deployed full-stack applications, including a multi-role certificate verification platform and a JWT-secured job tracking system. BCA graduate with strong fundamentals in React.js, Node.js, Express.js, and MongoDB. Focused on building scalable, secure, and user-friendly web applications. Seeking a full-time developer role to contribute to a product-driven team.

Skills

Frontend: React.js, HTML, CSS, JavaScript

Backend: Node.js, Express.js, JWT Authentication, Middleware

Database: MongoDB, Database Schema Design

Tools & Platforms: Git, GitHub, Vercel, Postman, VS Code

Projects

CERTIFY - Online Certificate Verification System

MERN Stack Application (MongoDB, Express.js, React.js, Node.js)

[GitHub](#) | [Live Demo](#)

- Architected a multi-role authentication system supporting 3 user types (Admin, University, Company), enabling end-to-end certificate issuance and real-time verification workflows.
- Designed and built 12+ RESTful API endpoints in Express.js with role-based access control (RBAC), preventing unauthorized certificate access or tampering.
- Implemented JWT-based session management with token expiry and refresh logic, improving application security posture.
- Built responsive React.js dashboards for each role, reducing navigation complexity and improving task completion flow.
- Integrated MongoDB with Mongoose schemas for structured certificate data storage and efficient query performance.

Job Application Tracker

MERN Stack Application (MongoDB, Express.js, React.js, Node.js)

[GitHub](#) | [Live Demo](#)

- Built a full-stack job tracking application enabling users to manage 100+ job applications across 3 status stages: Applied, Interview and Rejected.
- Implemented JWT-based authentication with protected routes, ensuring each user's data remains isolated and secure.
- Developed complete CRUD API (Create, Read, Update, Delete) for job records using Express.js and MongoDB, with input validation and error handling.
- Designed a dynamic React.js UI with real-time status filtering, allowing users to instantly sort applications by current stage.

Personal Portfolio Website

React.js Portfolio Application

[GitHub](#) | [Live Demo](#)

- Developed and deployed a responsive portfolio site using React.js and Tailwind CSS, achieving clean cross-device rendering on mobile, tablet, and desktop.
- Implemented smooth scroll navigation, animated section reveals, and project filtering — demonstrating frontend interaction design skills.
- Deployed on Vercel with CI/CD via GitHub, enabling automatic updates on every push.

Education

2022 – 2025 Kannur, Kerala, India	Bachelor of Computer Applications(BCA) <i>Kannur University</i> • Graduated with 79.22%.
2020 – 2022 Kannur, Kerala , India	Higher Secondary(Science) <i>Govt HSS Ramanthali</i> • Completed higher secondary education with 92%.

Certificates

MERN Stack Developer Training - Zoople Technologies Pvt Ltd

Nov 2025 – Feb 2026

- Learned MongoDB, Express.js, React, and Node.js
- Built full-stack web applications with CRUD functionality
- Developed REST APIs and implemented authentication
- Worked with Git and version control
